

Naun Flores

Senior Odoo Developer · Technical-Functional Consultant

El Salvador | naunflores620@gmail.com | naunflores.com | LinkedIn | GitHub

Profile

Senior Odoo developer and technical-functional consultant, working with Odoo since 2020. I lead end-to-end ERP implementations that integrate every area of a company, from accounting, payroll and inventory to sales, purchasing and production, for businesses in El Salvador in manufacturing, import and distribution, restaurants and seafood import. My edge is combining hands-on development with functional knowledge of how those businesses really operate.

Experience

Senior Odoo Developer, Development and Implementation Lead

Jan 2020 – Present

GRUPO SOLUTECNO, S.A. DE C.V., El Salvador, full-time

- Lead a team of 3 developers and 2 IT support specialists, coordinating development, implementation and support from requirements analysis to go-live.
- Deliver end-to-end ERP implementations that integrate every business area for companies in manufacturing, import and distribution, restaurants and seafood import.
- Translate each client's processes, from accounting and payroll to inventory and sales, into Odoo configuration and custom functionality as technical-functional consultant.
- Develop custom modules with the Odoo ORM, Python, XML/QWeb and OWL, and optimise slow views, reports and scheduled jobs on PostgreSQL.
- Migrate modules and databases between Odoo versions, from 11 to 19, preserving business data.
- Integrate Odoo with external systems through its APIs and services built with FastAPI.

Projects

LexOS. Own product: a virtual legal assistant built on case law from El Salvador.
