## Senior Odoo Developer · Technical-Functional Consultant

El Salvador | naunflores620@gmail.com | naunflores.com | LinkedIn | GitHub

---

### Profile

Senior Odoo developer and technical-functional consultant, working with Odoo since 2020. I take companies from process analysis to go-live: requirements, custom development, integrations and data migration. My edge is combining development with functional knowledge of accounting and payroll, so what I build fits how the business really operates, including management and inventory processes in large operations.

### Experience

---

#### Senior Odoo Developer, Development and Implementation Lead

Jan 2020 – Present

GRUPO SOLUTECNO, S.A. DE C.V., El Salvador, full-time

- Lead the development and implementation team, coordinating functional and technical consultants from requirements analysis to go-live.
- Translate clients' accounting and payroll processes into Odoo configuration and custom functionality as technical-functional consultant.
- Implement management and inventory processes for companies with large operations.
- Develop custom modules with the Odoo ORM, Python, XML/QWeb and OWL, and optimise slow views, reports and scheduled jobs on PostgreSQL.
- Migrate modules and databases between Odoo versions, from 11 to 19, preserving business data.
- Integrate Odoo with external systems through its APIs and services built with FastAPI.

### Projects

**LexOS.** Own product: a virtual legal assistant built on case law from El Salvador.

### Technical skills

**Odoo development.** Odoo ORM, Custom modules, XML / QWeb, OWL.

**Backend and integrations.** Python, FastAPI, APIs.

**Frontend.** JavaScript, OWL.

**Data and tools.** PostgreSQL, Git.

### Functional expertise

**Accounting.** Chart of accounts, journals, bank reconciliation, financial statements and accounting reports.

**Payroll.** Salary rules, earnings and deductions, benefits, social security contributions and payslips.

**Inventory.** Stock control and valuation, lot and serial-number traceability, large product catalogues.

**Sales.** CRM pipeline, quotations, sales orders and electronic invoicing.

**Purchasing.** Purchase requisitions, purchase orders and goods receipts.

### Education

---

#### Systems Engineering (Ingeniería de Sistemas Informáticos)

2016 – 2021

Universidad de El Salvador, Graduated

### Languages

**Spanish.** Native.

**English.** Intermediate, self-assessed: technical documentation and written communication.
